## ***FOR ALL DIMENSIONS OF LIFE***

---

Universal Flooring is a brand of Unilin Flooring, a leading international player in the flooring business. As a manufacturer of engineered wood floors, we have over 40 years of experience in the wood and wood processing industry.

Universal Flooring represents:

- Extensive range
- High quality products
- Focus on innovation
- Conservation of the world's natural resources

Our comprehensive warranty and easy maintenance ensure the ongoing beauty of your Universal Flooring.

Universal Flooring offers an extensive range of high quality products, manufactured from the world's finest selection of classic and exotic wood species. Our wide selection of parquet products is designed to fit individual styles and preferences ranging from richly traditional looks to contemporary expressions.

## ***GRADING***

---

Universal Flooring contains a lively level of variation in colour and grain structure. Planks have been selected with large filled knots to provide an authentic charm.

## ***FINISH***

---

All planks are finished with a protective lacquer, which provides:

- Hardest finish
- High scratch resistance (tested with steel wool)
- Easy to maintain
- Immediately accessible after installation

## ***SURFACE STRUCTURE***

---

Both the Supreme Oak as well as the Outback planks have a brushed surface, which deepens the grain and makes the floor really authentic.

## ***EDGE TREATMENT***

---

The beveled edges emphasise the shape of each board.

SUPREME OAK

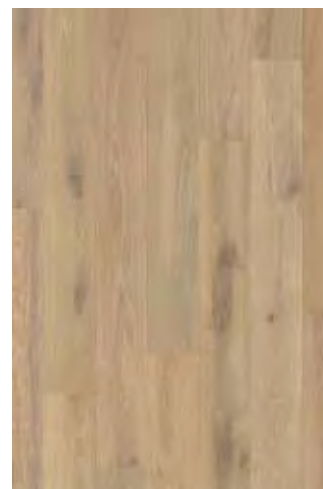

2200 x 190 x 14mm  
Pack size: 6 planks = 2.508m<sup>2</sup>  
All sizes are nominal

 1 strip  
 UN1213

## ***MAINTENANCE & WARRANTY***

---

Maintaining your floor is surprisingly easy: simply sweep, dry mop or vacuum on a regular basis. If necessary, you can clean the floor with a slightly damp mop. A floor from Universal will last for years and years with the proper care and maintenance. We recommend that you use protective materials under furniture legs and castor chairs and place rugs in high traffic entrance areas. Universal Flooring offers a superior warranty to protect your parquet flooring throughout its long life.

## ***CONSERVATION OF NATURAL RESOURCES***

---

We at Universal Flooring:

- Ensure our commercial activities are based on timber sourced from well managed forest resources, through the use of hevea wood and HDF as middle layer for our stable multilayer parquet. Our HDF core layer is PEFC-certified. Hevea is recycled wood, sourced solely from plantations. When a tree no longer yields sufficient latex, they are replaced by another one, thus starting a new cycle of latex production. Usually, these logged trees are burned by farmers, which causes an excessive amount of CO<sup>2</sup>-emissions. Universal Flooring recycles the logged trees and uses them for the multilayer parquet.
- Can honestly state that our factories are FSC- and PEFC-certified
- Advocate certification of forests, and accept the policies of any independent organization.
- Support national and international efforts towards sound forest management. We are committed to purchasing all our timber from legal sources.
- Only use adhesives corresponding to the E1-standard which fulfills the highest international environment standards approved by accredited laboratories.
