# CARPET UNDERLAY

# Introduction

Experience the epitome of luxury with Dunlop's carpet underlays – Luxury & Imperial Plus. These underlays are the ideal companions for your new carpet, ensuring enduring reliability and luxurious comfort for years to come.

Selecting a carpet underlay from a trusted name like Dunlop guarantees a tranquil and comfortable home for your entire family. The superior thickness and density of Dunlop Luxury & Imperial Plus significantly enhance carpet performance, providing a softer and more comfortable feel throughout your house, irrespective of the floor type, even accommodating heated slabs up to 40°C.

Not only do these high-quality Dunlop underlays improve comfort, but they also contribute to energy efficiency. By reducing heating bills and minimizing noise transfer through outstanding thermal and sound insulating properties, they create a serene living space. The underlays absorb sound, enhancing acoustics and reducing harsh noise, creating a quieter and more comfortable home environment.

Dunlop underlays go beyond comfort and efficiency; they are treated with antimicrobial agents, enhancing indoor air quality and simplifying cleaning. Proven to protect your carpet against dust mites, bacteria, moulds, and mildew, these underlays contribute to a healthier living space, minimizing triggers for asthma attacks and allergies such as hay fever and eczema.

As a testament to their commitment to quality and sustainability, all Dunlop underlays are proudly Australian-made, 100% recyclable, and backed by a guarantee for the life of your carpet. Choose Dunlop for the ultimate blend of style, comfort, and design in your living space.

# Carpetmate Standard Underlay
